

Dr. Yahdiana Harahap is a Professor in the field of Pharmaceutical Chemistry. Dr. Yahdiana received her Master Degree in 1994 and Doctoral degree in 2003 from Department of Pharmacy, Faculty of Mathematics and Natural Sciences Insitut Teknologi Bandung.

For more than 25 years, she has been a lecturer in Department of Pharmacy, Faculty of Mathematics and Natural Sciences, Universitas Indonesia. Her scientific field is Pharmaceutical Chemistry, especially Bioanaysis and DNA Adduct Analysis. Based on her discipline, she has developed a lot of analysis methods in biological matrix especially in connection with bioequivalency studies to guarantee the drug quality especially generic drugs.

She has assumed positions of greater responsibility in Department of Pharmacy, Faculty of Mathematics and Natural Sciences, Universitas Indonesia; during her time as Head of Department of Pharmacy (2008-2011) she successfully led a team of transforming Department of Pharmacy to Faculty of Pharmacy, in which she was the Acting Dean of Pharmacy Faculty, Universitas Indonesia (2011-2013).

She has been The Head of BA-BE Laboratory since 2008. She has also served as Expert Team in the National Agency of Drugs and Foods Control since 2008, an ISO 17025 Assessor of National Accreditation Committee of since 2010, Member of Expert Council Indonesian Pharmacist Association, Expert Witness in National Narcotics Agency, reviewer in several international journals, Vice President on Asian Federation of Pharmaceutical Science, member of International Pharmaceutical Federation (FIP) and as The Head of Pharmacy Division in Indonesian Accreditation Agency for Higher Education in Health (LAM PT-Kes) since 2014. She is active in attending many pharmacy education workshops in several international events such as FIP, AASP, etc. She is also keen in sharing her knowledge and experience about pharmacy education in some universities in Indonesia.

She has generated more than 70 scientific work published in international and national journals, thus presented in national and international conferences. In the last 5 years, she has been invited as an invited speaker, plenary speaker, and organizing committee in many international conferences in several countries especially Bioavailability/Bioequivalence Congress thus Analytical and Bioanalytical Technique Conference.
